TECHNICAL DESIGNER

Mobile phone: +84 584281005

EDUCATION

- Bachelor of Textile and Garment Technology

Ho Chi Minh City University of Technology (2022 - 2026)

WORK EXPERIENCE

Lotus textile & garment co. ltd

06/2025 – 08/2025

Intern Technical Designer

Tay Ninh Province, Viet Nam

- Supported technical design process from tech pack to sample approval.
- Checked garment measurements according to spec sheets.
- Collaborated with production and quality control teams to resolve technical issues.
- Participated in fitting sessions and suggested technical adjustments.

Project: Application of CLO 3D and Gerber AccuMark in Men's Outdoor Jacket Design

- Applied CLO 3D and Gerber AccuMark in the design and development of men's outdoor jackets, including 3D garment visualization, pattern making, grading, and marker planning.
- Prepared technical documentation, pattern files, and production-ready markers for manufacturing.

Project: Digital Fashion Development of a Spring Evening Gown Using CLO 3D and Gerber AccuMark

- Designed and developed a Spring/Summer evening gown collection from concept research to final garment realization.
- Conducted trend forecasting, color palette analysis, fabric selection, and silhouette development based on seasonal fashion trends.
- Created fashion illustrations, technical flats, and garment specifications to support the design process.
- Utilized CLO 3D for 3D garment visualization, virtual fitting, and design evaluation before sample production.

LANGUAGE PROFICIENCY

Vietnamese: Native Language

English: Professional working efficiency,

RELATED SKILL

- Computer skills: Adobe software, Gerber Accumark, Clo3D, Microsoft apps.
- Time management.
- Pattern Making.
- 3D Garment Simulation.
- Attention to Detail
- Production Workflow Understanding
